

Dear Dr. Henney,  
I am writing to express my concern over the  
FDA's regulation of genetically engineered  
(GE) food. I request that the agency's  
current policies be changed, and I support  
all the points in docket #00P-1211\CP1

- ☒ All GE foods should be labeled so I am properly informed and have a choice
- ☒ GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- ☒ There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.
